#### ***Allowable Subject Matter***

Claims 17-28 are allowed.

#### ***Reasons for Allowance***

Claim 17 is allowed since there is no prior art teaches a reflector comprising a plurality of curved portions, wherein said curved portions have a plurality of shapes, in which an inclination angle of each said shape is maximized on a side portion of said curved portion, each shape having a center of curvature and a distance between adjacent center of curvature, measured as distance between a line perpendicular to the base material and passing through the center of curvature, is in the range of 0.1-10 micrometers.

Claims 18-28 are allowed since they depend on the allowed generic claim 17.
